

Technical Exhibit 8

Theater Support

From time to time you may be asked to provide on a voluntary temporary-duty (TDY) basis test engineering and related support services for testing, evaluating and analyzing DoD systems in Iraq/Afghanistan or other theaters of operations. These services may be provided as part of the ATEC Forward Operational Assessment (FOA) Team or other special assignments designed to evaluate DoD equipment deployed in war zones. Contractors will be working under the technical direction of FOA team leaders or others to provide support.

Special Provisions for Theater Deployment

Operations are governed by the Contracting Officers' Guide for Theater Business Clearance Afghanistan dated 15 May 2012 and the Contracting Officers' Guide for Theater Business Clearance Iraq dated 15 February 2012. Contractor privileges and support can vary on each assignment and will be fully funded by the Contracting officer in a Letter of Authorization. Generally, in these assignments, the Government will provide office space, communication services, equipment, billeting and dining services as well as emergency medical care. Your personnel will be provided security by the U.S. military and shall not carry personal firearms in the course of these assignments. They will work with military personnel who are armed at all times. They will work on Forward Operating Bases (FOB) that have guarded perimeters. If they have to move between FOB's they will do so via Military Air (fixed or rotary wing) and be accompanied by armed military members. They will not leave FOBs via ground convoy and will not be asked to participate in combat mission or guard duty. Their sleep, office and dining areas will have "bomb shelters" nearby to which contract personnel can seek shelter in the event of indirect fire.
